EDUCATION

University of Central Punjab, Lahore, ADP-CS

Associate Degree Program in Computer Science with
a CGPA of 3.72

Mar 2022- Mar 2024

WORK EXPERIENCE (PROJECTS)

RENT A CAR WEBSITE (FINAL YEAR PROJECT)

Developed using HTML, CSS, JavaScript, PHP, and MySQL. Features: user authentication, dynamic listings, advanced filtering, booking system, and responsive design.

- User Management: MySQL tables for user info, encrypted passwords, booking history.
- Car Listings: Tables for car data (make, model, year, price, availability, images).
- Performance Optimization: Indexed key columns, optimized query design.

VOTING MANAGEMENT SYSTEM

- Secure user authentication and role-based access control.
- Well-structured MySQL tables for voter and candidate data.
- User-friendly PHP voting interface with MySQL transactions.
- Real-time election monitoring and reporting.

FOOD RECIPE APP

Developed a ReactJS food recipe app with dynamic search, detailed recipes, and user ratings.

Other Projects: Sports Club & career selection website, Personnel Portfolio, Session Clock & Drumpad app
